TITLE	Resource Inventories 1990 .
INSTITUTION	Council for Exceptional Children, Reston, VA. Center for Special Education Technology.
SPONS AGENCY	Special Education Programs (ED/OSERS), Washington, DC.
PUB DATE	90
CONTRACT	300-87-0115
NOTE	38p.
PUB TYPE	Reference Materials - Directories/Catalogs (132) -- Collected Works - General (020)
EDRS PRICE	MF01/PC02 Plus Postage.
DESCRIPTORS	Accessibility (for Disabled); Assistive Devices (for Disabled); *Computer Oriented Programs; *Disabilities; Elementary Secondary Education; Higher Education; Information Services; *Information Sources; Preschool Education; Rehabilitation; *Technology; Visual Impairments; Young Children
IDENTIFIERS	Augmentative Communication Systems

ABSTRACT

This set of 10 resource inventories provides listings of information and service resources organized by state or by subtopic. Listings typically include name, address, phone, and a contact person. The first inventory lists the 39 Alliance for Technology Access Centers which are community-based resources providing specific areas of expertise for parents, teachers, and disabled individuals. The second inventory, on assistive devices, lists 57 resources which provide such services as assessment and evaluation, equipment loan, product demonstration, or information services. The third resource is on augmentative communication for assistive devices and lists 48 resources. The fourth inventory lists 47 early childhood resources and the fifth lists 25 national information service providers. Twenty-eight sources of information about hardware and software products available for use in special education are listed next. Codes indicate the type of product information available from each source. The 16 rehabilitation engineering centers are listed in the seventh inventory followed by recipients of 22 state grants to develop consumer responsive, statewide systems of assistive technology services for individuals with disabilities. The ninth inventory covers 32 university-based technology training programs (coded by type of program, type of training, and topics covered in training). The last inventory lists 28 resources for the visually impaired. (DB)

Resource Inventory: Alliance for Technology Access

The Center's Resource Inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center inventories.

The Alliance for Technology Access (ATA) centers are community-based resources for parents, teachers, and disabled individuals. Each center has a specific area of expertise and provides services based on community interests and needs.

Resource Inventory: Assistive Devices

The Center's Resource Inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center's inventories.

The resources listed here may provide services such as assessment and evaluation, equipment loan, product demonstration, or information services.

Resource Inventory: Augmentative Communication

The Center's Resource Inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center's inventories.

Resource Inventory: Early Childhood

The Center's Resource Inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center inventories.

Early Childhood Resources are listed under national information resources and selected available products. In addition, state, regional, and local service and information resources are listed. Please note that these offices can only service the state, regional, or local areas in which they are located. They are not funded to serve other areas.

Resource Inventory: Product Availability

The Center's Resource Inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center inventories.

This topical inventory lists sources of information about hardware and software products available for use in special education. Codes are used to indicate the type of product information available from each source.

Resource Inventory: State Grants P.L. 100-407

The Center's Resource Inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center inventories.

The Technology-Related Assistance for Individuals with Disabilities Act of 1988 (P. L. 100-407) provides for a program of state grants to develop a consumer responsive, statewide system of assistive technology services for individuals with disabilities. Since the fall of 1989, the National Institute on Disability and Rehabilitation Research (NIDRR/OSERS) has awarded grants to 22 states.

Resource Inventory: Visually Impaired

The Center's Resource inventory series provides listings of information and service resources in special education technology. The inventories are organized by state and by topic. This information is intended to help technology users locate needed services. Current listings are not all inclusive. Readers are urged to contribute by suggesting other technology resources to be added to the Center inventories.
